## WORK EXPERIENCE

---

**Technical Co-Founder**

Mar 2020 — Present

The Hardware Stop

Dubai, United Arab Emirates

- Spearheaded the creation of an e-commerce website and new brand identity to elevate the digital footprint of the family business, increasing sales and reaching a 4000+ customer-wide base.
- Led the end-to-end development process, including configuration, customization, and launch of the e-commerce website. Leveraged HTML, CSS, PHP, JavaScript, and SQL to ensure seamless functionality and tailor the website layout and modules to align with business requirements.

**Course Assistant — CS501 Android Application Development**

Jan 2024 — May 2024

Boston University

Boston, MA, United States of America

- Conducted regular office hours, graded weekly assignments, and answered questions on Piazza, providing guidance to a class of 70 students to enhance understanding of Android Development using Kotlin.
- Collaborated with the professor to implement critical syllabus changes and redesigned the grading system to positively impact students' learning experience.

**IT Support Specialist**

Jan 2024 — May 2024

BU IT Help Center (Learning & Event Technology Services)

Boston, MA, United States of America

- Provided technical support to instructors, troubleshooting and resolving technical issues related to equipment, software, and systems to ensure a seamless and productive learning experience.
- Managed inventory and maintenance of equipment across campus to ensure proper storage and security of equipment and prevent equipment loss or damage.
